

HELPFUL HINTS BOX PLEATS

BOX PLEATS BLUES; CHANSON; SWING

WHEN PLEATING A BOX PLEAT TAPE, PLEASE ENSURE THAT

- it's important to hold all three cords. The top cord automatically folds the pleat flat. In order to fix the pleat also on the reverse side and to ensure perfect hanging in the suspension system, we recommend a forked hook or hook glider to collect the pockets left and right to the middle of the pleat.

WHEN SEWING ON THE BLOX PLEAT TAPE, PLEASE ENSURE THAT

- the upper stitching line is below the top drawcord.
- the tape must be exactly leveled with the upper edge of the fabric to ensure a perfect functioning, which means that it should be sewed without heading space.
