BANDEX - experienced and progressive

It is with pride that we look back on a company with an enduring history: our company was incorporated in 1955 and since that time our dedicated staff, now as always, assures the ambitious quality standards for which the name BANDEX stands. And the high quality has been documented and certified: in 1995, BANDEX was the first central European curtain-tape weaving mill that was awarded a quality management certificate (EN ISO 9001). BANDEX stands for comprehensive know-how combined with innovative ideas and technical advance.

BANDEX - reliable and flexible

We produce a large part of our products under our own auspices: this is possible due to our proper warping, weaving and warp knitting units. Textile finishing and processing is done in our own plant, thus enabling us to react in a most flexible and rapid way to your individual wishes – even with astonishing small purchase order quantities. When it comes to curtains and curtain tapes, BANDEX is your ideal partner due to the absolute adherence to delivery dates, a good priceperformance ratio and excellent customer support.

BANDEX - multifaceted and active

More than 500 different curtain tapes in the most various executions allow the implementation of infinite decoration ideas to your customers. All our products and services including, of course, also the present brochure, are targeted to enable you to work most efficiently and smoothly.

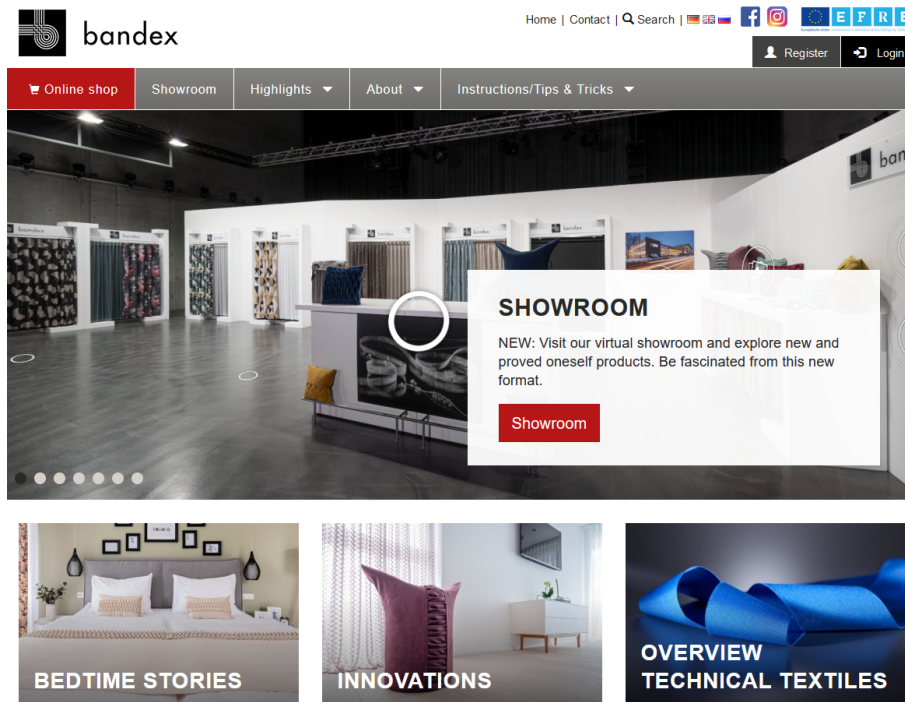

BANDEX - online

In our **online shop** you will get even more information than in our brochure: follow the link **www.bandex.com** and you will find more details about our range of products and you can place your order online. The most recent news on novelties and on special promotional offers complete our web presence.
